

BIOGRAPHY

Tony Lindeman,

**Senior Systems Engineer.
Westar Aerospace and Defense Group, Inc.**

Tony Lindeman has over 13 years of Department of Defense (DoD) and commercial project management experience that spans tactical communications, missile defense, wireless networking, and aviation electronic systems. His duties have included providing project management and systems engineering management support at all levels.

He is currently serving as a Senior Systems Engineer providing programmatic and technical support to NASA's X-37 Program Office at Marshall Space Flight Center in Huntsville, Alabama. He is responsible for ensuring a disciplined systems engineering process is maintained during the development and flight-testing of the X-37 Approach and Landing Test Vehicle (ALTV).

Prior to his retirement from the U.S. Marine Corps in June 2000, he served as the Assistant Project Officer assigned to oversee the Marine Corps' \$300M procurement decision to procure the U.S. Army's SINCGARS Radio System in 1992. In June 1996, he was designated as the Deputy Project Manager serving with the U.S. Army during the pre-production development phase of the Advanced Threat Infrared Countermeasures/Common Missile Warning System (ATIRCM/CMWS).

Mr. Lindeman is a graduate of the Naval Postgraduate School (NPS) and the Defense Systems Management College's Advanced Program Management Course; DoD Program Management, Level III certified; and a certified Project Management Professional (PMP).
